Glycolysis capability (extracellular acidification) analysis.

QS Qian Shen HME Heather M Evans CR Chad A. Rappleye

Updated date: Jul 16, 2021

An abbreviated version of this protocol was published in mBio in Apr 2020

Metabolism of Gluconeogenic Substrates by an Intracellular Fungal Pathogen Circumvents Nutritional Limitations within Macrophages

DOI: 10.1128/mBio.02712-19
